

(More than) 21 reasons to buy
Continental

**CONTINENTAL INTRODUCES OUR
NEWEST REASONS TO BUY FROM
YOUR ONE STOP SUPPLIER FOR
GRILLES, REGISTERS AND DIFFUSERS.**

ALUMINUM

AACB Series Aluminum, Adjustable Curved Blade Registers

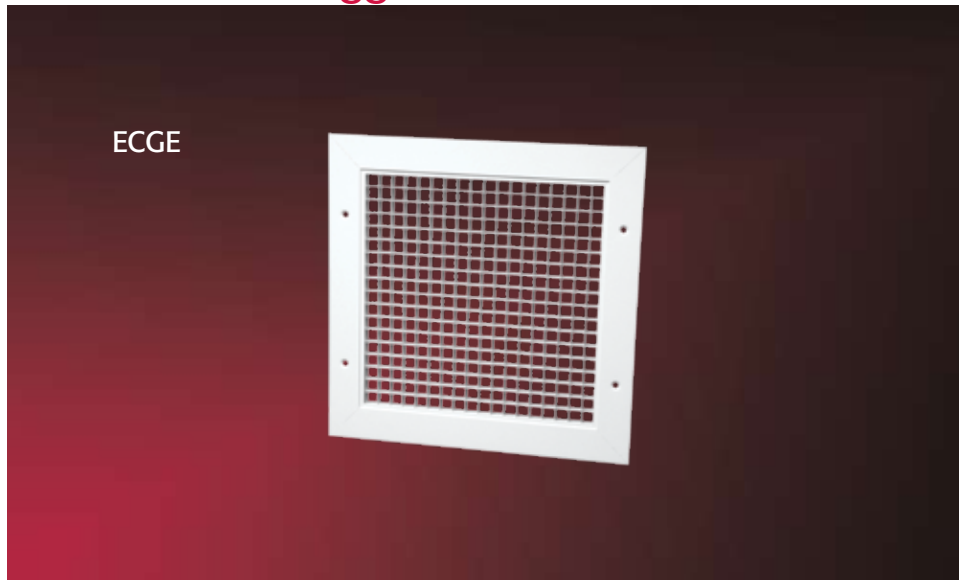

- * 1, 2, 3 & 4 way air throw patterns
- * Multi-Shutter Dampers
- * Suitable for ceiling or wall mounting options
- * Individual, adjustable curved blade louvers increase deflection control
- * Aluminum Construction
- * White (standard) or Mill finish

AACBG Series Aluminum, Adjustable Curved Blade Grilles

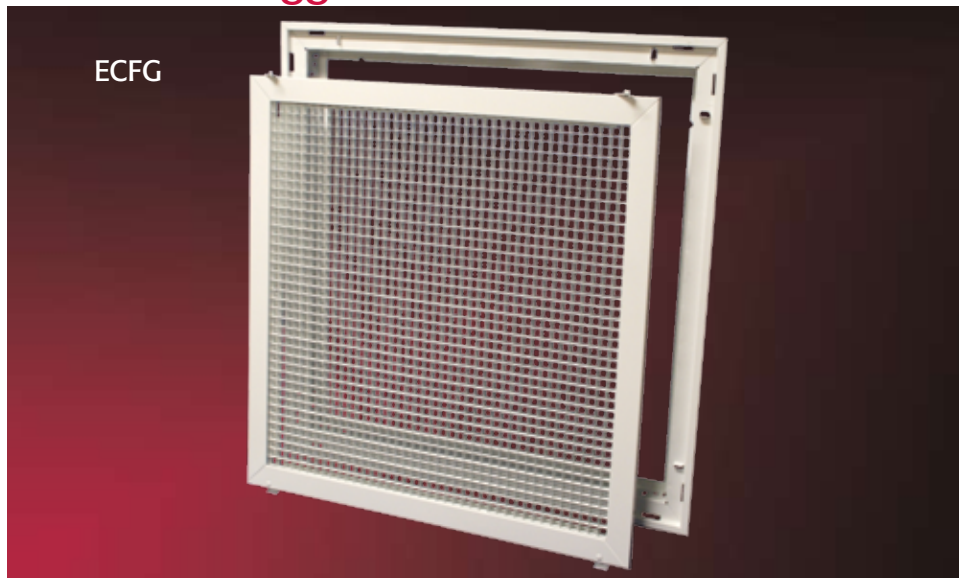

- * 1, 2, 3 & 4 way air throw patterns
- * Suitable for ceiling or wall mounting options
- * Individual, adjustable curved blade louvers increase deflection control
- * Aluminum Construction
- * White (standard) or Mill finish

ECGE Series Egg Crate Grilles

- * Aluminum extruded frame with square core design
- * $\frac{1}{2}$ " x $\frac{1}{2}$ " x $\frac{1}{2}$ " core design
- * Available in sizes from 4" x 4" up to 48" x 48"
- * All Aluminum Construction

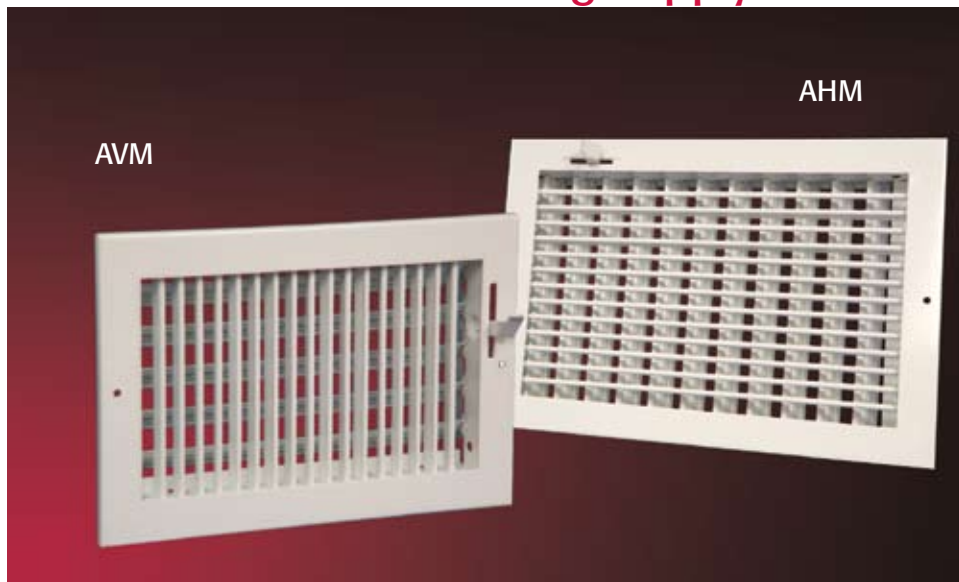

ECFG Series Egg Crate Filter Grilles

- * All Aluminum construction
- * $\frac{1}{2}$ " x $\frac{1}{2}$ " x $\frac{1}{2}$ " core design
- * Accommodates standard 1" filter (not included)
- * Removable face with concealed hinges for easy frame installation
- * Convenient access latches for changing filter
- * Mount flush with filter frame
- * Available from 8" x 8" to 48" x 48"

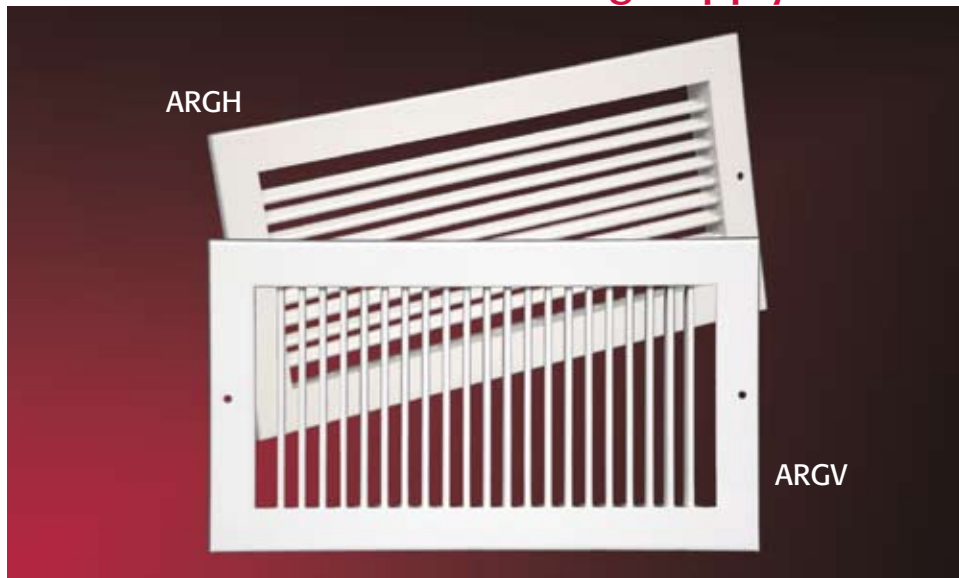

ALUMINUM

AVM/AHM Series Aluminum Sidewall Ceiling Supply Diffusers

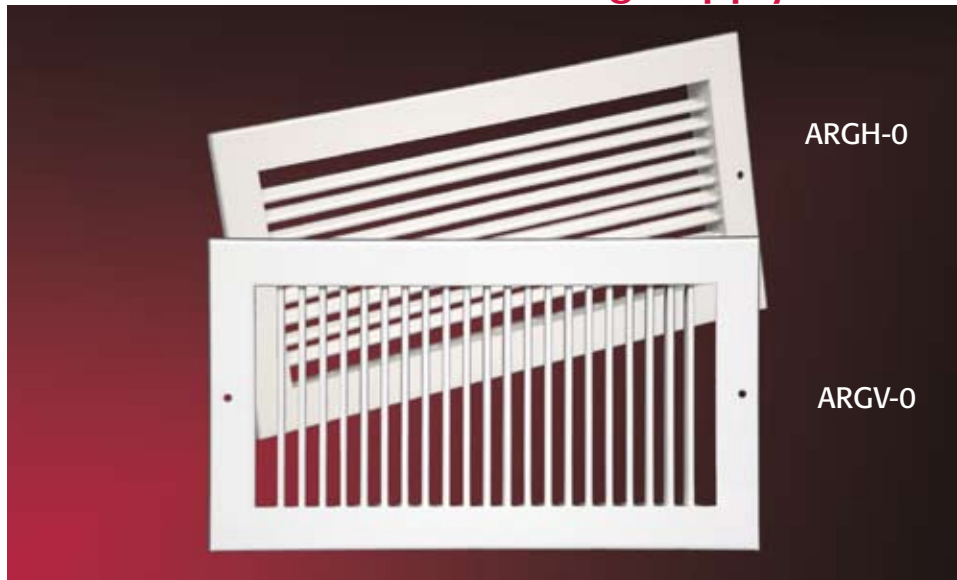

- * Adjustable deflection made easy with 3/4" spacing of the bars.
- * Suitable for Ceiling or sidewall mounting.
- * Multi-Shutter Damper
- * Pivoted Face Bars for easy positive setting

ARGH/ARGV Series Aluminum Sidewall /Ceiling Supply Grilles

- * Adjustable deflection made easy with 3/4" spacing of the bars.
- * Suitable for Ceiling or sidewall mounting.
- * Pivoted Face Bars for easy positive setting

ARGH-0/ARGV-0 Series Aluminum Sidewall /Ceiling Supply Grilles

- * Fixed deflection at 0° with 3/4" spacing
- * Suitable for Ceiling or sidewall mounting.
- * All Aluminum Construction
- * Horizontal or Vertical Face Bars Set Straight
- * Available from 4" x 4" to 48" x 48".

AHVG/AVHG Series Aluminum Sidewall /Ceiling Supply Grilles

- * Adjustable, extruded blades, double deflection.
- * Suitable for Ceiling or sidewall mounting.
- * Both front and rear blades may be set for desired deflection.

ALUMINUM

AFBG Series Aluminum Fixed Bar Grilles

- * Available with louvers permanently fixed at a 40° or 60° angle
- * Durable aluminum construction to prevent rusting and yet lightweight enough for easy installation.
- * Available in 4" x 4" to 48" x 48".

AFG Series Aluminum Filter Grilles

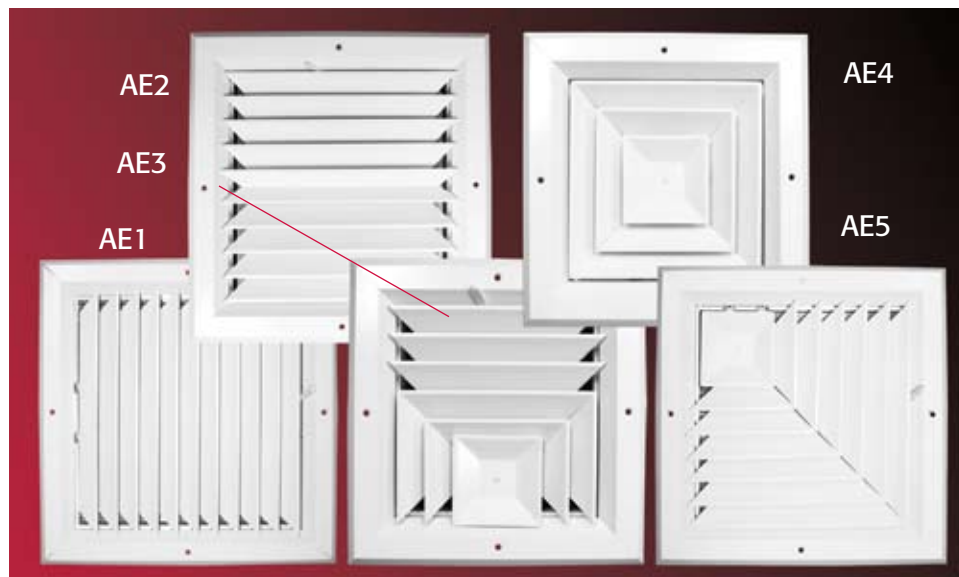

- * 1/2" and 1/3" spaced louvers available
- * Durable aluminum that prevents rusting
- * Accommodates standard 1" filter (not included)
- * Removable face with concealed hinges for easy frame installation
- * Easy access latches for changing of filter
- * Available from 8" x 8" to 36" x 36"

AFBFG Series Aluminum Fixed-Bar Filter Grilles

- * Fixed louvers at a 60° angle
- * Durable aluminum construction to prevent rusting and yet lightweight enough for easy installation.
- * Removable face with concealed hinges for easy frame installation
- * Available from sizes 8" x 8" to 48" x 48"

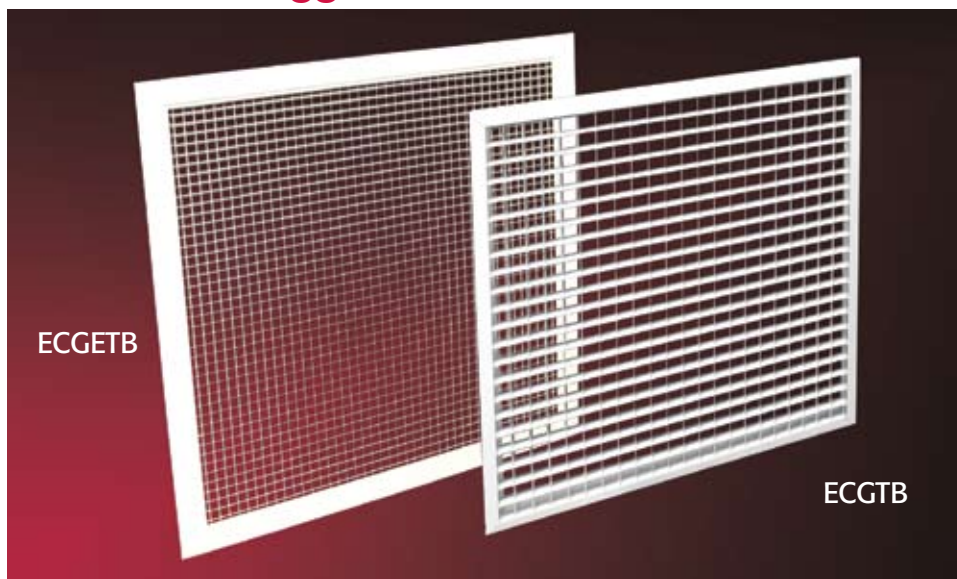

AE Series Aluminum Extrusion

- * We provide you with 5 different diffusion patterns, making our product effective in any setup.
- * Available with a multi-shutter or opposed blade dampers or as a grille
- * Face mount for easy installation.

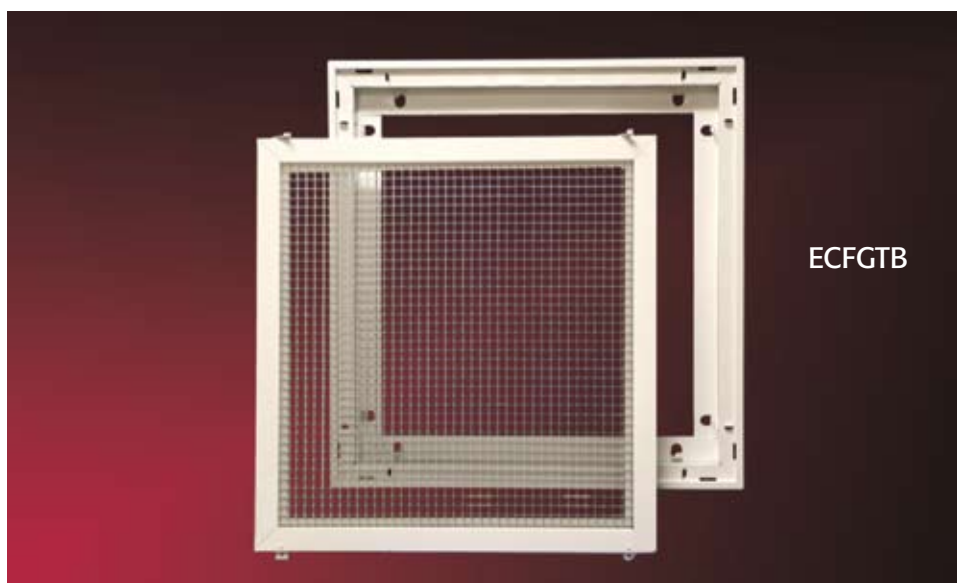

ALUMINUM

ECGETB/ECGTB Extruded Egg Crate T-Bar Grille/ Egg Crate T-Bar Grille

- * All Aluminum Construction
- * $\frac{1}{2}$ " x $\frac{1}{2}$ " x $\frac{1}{2}$ " square core
- * Square Core design with a "U" Channel or Extruded Frame.
- * Overall dimensions of $23 \frac{3}{4}$ " x $23 \frac{3}{4}$ "
- * Mounts flush with T-Bar Ceilings

ECFGTB Egg Crate Filter-Grille T-Bar

- * $\frac{1}{2}$ " x $\frac{1}{2}$ " x $\frac{1}{2}$ " square grid core design
- * Removable face with concealed hinges for easy frame installation
- * Accommodates standard 20" x 20" x 1" Filter (not included)
- * Easy access latches for changing of filter
- * Overall size of $23 \frac{3}{4}$ " x $23 \frac{3}{4}$ ", fitting standard T-Bar applications

AHVS/ABHV/AFP Series High Volume, T-Bar Diffusers

- * 360° Diffusion
- * AHVS & AFPD have insulation options. ABHV is without insulation.
- * Three or Two tier diffuser providing high volume air flow
- * Damper adjustable through face
- * Formed Back Plenum

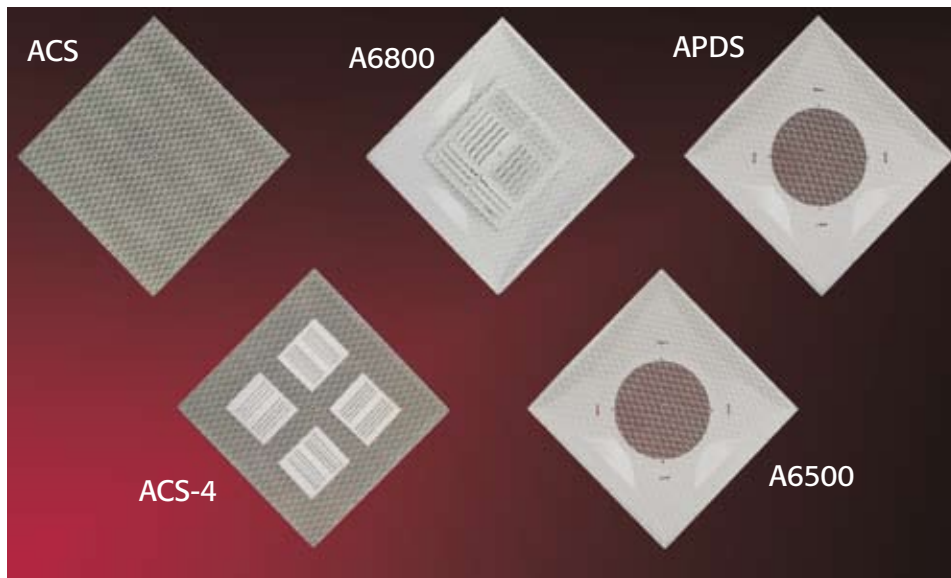

AOPD Series Aluminum Omnidirectional Plaque Diffuser

- * 360° air diffusion
- * Non-insulated, R1 & R6 insulation options
- * Provides High Volume Air Flow
- * Mounts Flush in T-Bar applications
- * Removable face for easy damper adjustment.

ALUMINUM

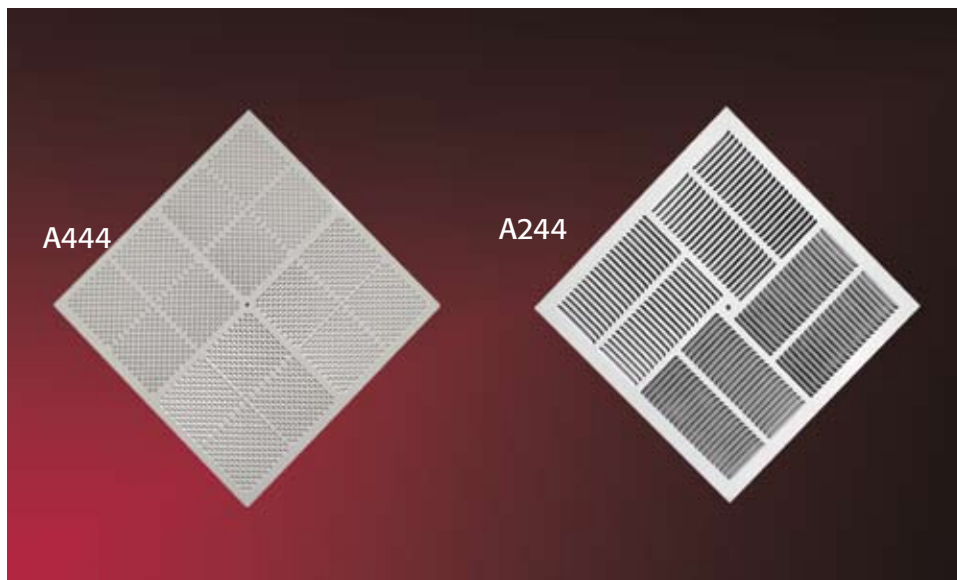

ACS/ACS-4/APDS/A6500/A6800 Perforated T-Bar Diffusers & Grilles

- * ACS - Perf Face, with option of R6 insulation.
- * A6800 - Perf face, Built in Curved Blade Diffuser, R6 insulation option
- * APDS - Perf Face, with options of 4-way Diffusion and R1/R6 insulation
- * ACS-4 - Perf face, 4-way diffusion with option of R6 insulation
- * A6500 - Return Air application, perf face, no insulation

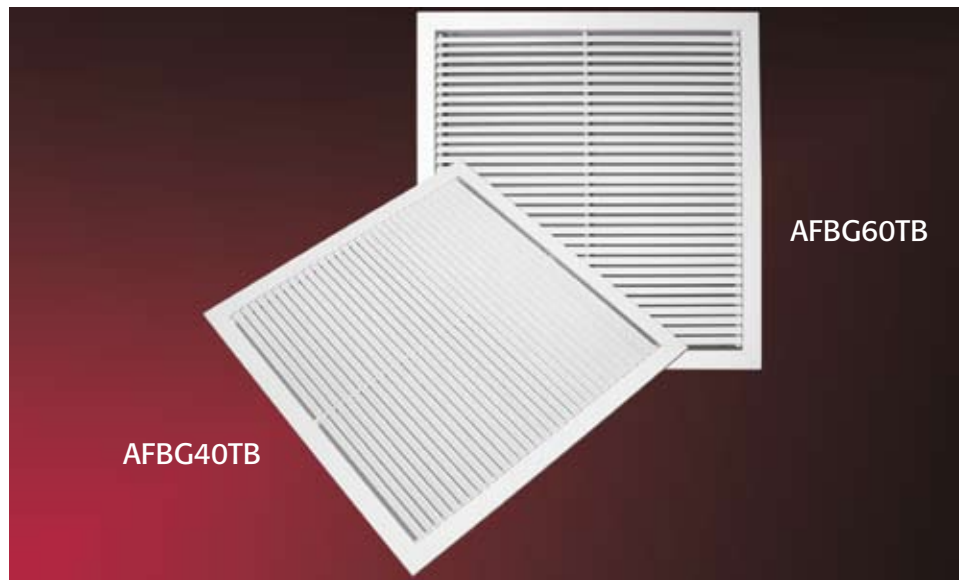

ALL MADE OF DURABLE, REINFORCED ALUMINUM

A444/A244/A344 Surflo™ & Louvered T-Bars

- * A440 - Patented Design, Superior Air Flow, 1-4 way diffusion, R1/R6 insulation options
 - * A244/A344 - Louvered face, 1/2" or 1/3" Louver Spacing, 4-way diffusion, R6 insulation option
- ALL MADE OF DURABLE, REINFORCED ALUMINUM

AFBG40TB/AFBG60TB Series Aluminum T-Bar Grilles

- * Durable, reinforced aluminum construction
- * Overall size 23 3/4" x 23 3/4" standard T-Bar Layins
- * Available with R6 formed fiberglass plenum
- * Fixed Face Bars at a 40° or 60° angle

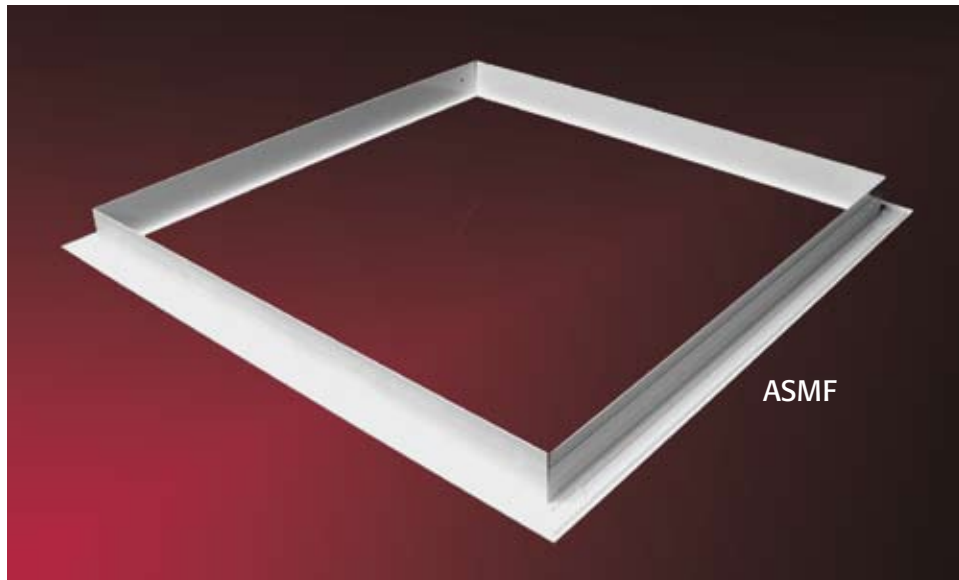

ATB Series Aluminum T-Bar Filter Grilles

- * ATL2 - 1/2" Louvered Face
- * ATL3 - 1/3" Louvered Face
- * AFBFG - Fixed Bar Face
- * ATP - Perforated Face
- * Sized for lay in ceiling
- * Accommodates standard 20" x 20" x 1" filter (Not included)
- * Removable face with concealed hinges for easy frame installation
- * Convenient access latches for changing filter

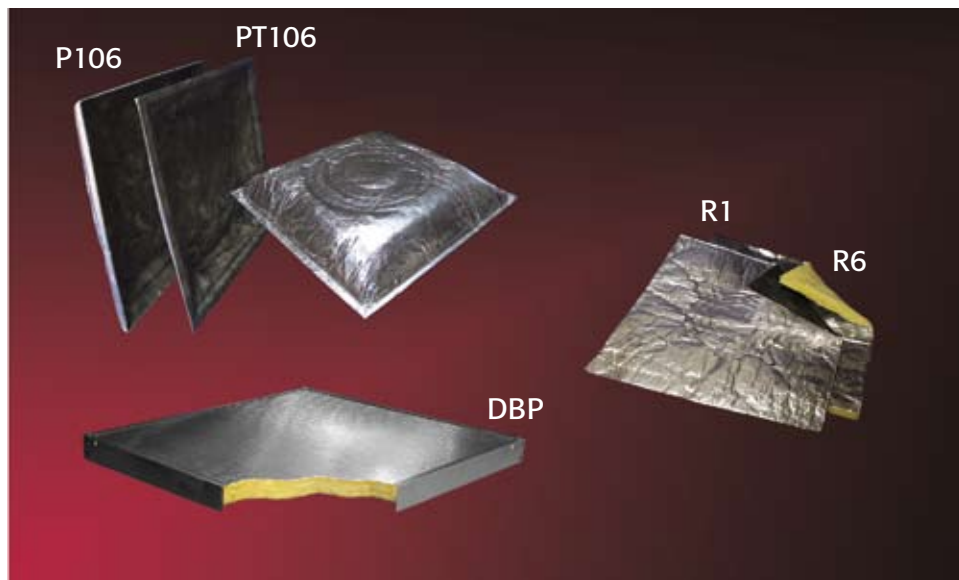

ALUMINUM

ASMF Series Aluminum Surface Mount Frame

- * Aluminum extrusion
- * Can be used as ceiling access.
- * Allows installation of standard T-Bar diffusers in a plaster ceiling.
- * Accepts standard T-Bar diffusers for drywall surface mount applications.

Insulation Options

- * **PT106 & P106** - Formed fiberglass plenum that is deep to improve its performance.
 - It has a 6" - 14" diameter, prescored, back to add to it's flexibility on the job site.
- * **R1 & R6**- Insulated fiberglass blankets
- * **DB**- Increases the size of duct work that you can connect.

They all have a bonded foil vapor barrier that minimizes condensation, and they meet or exceed the R6 ratings and tests

SACB Series Adjustable Curved Blade Registers

- * 1, 2, 3 & 4 way air throw patterns
- * Multi-Shutter Dampers
- * Suitable for ceiling or wall mounting options
- * Individual, adjustable curved blade louvers increase deflection control
- * Steel Construction
- * White (standard) or Mill finish

SACBG Series Adjustable Curved Blade Grilles

- * 1, 2, 3 & 4 way air throw patterns
- * Suitable for ceiling or wall mounting options
- * Individual, adjustable curved blade louvers increase deflection control
- * Steel Construction
- * White (standard) or Mill finish

STEEL

FBG40/FBG60 Series Fixed-Bar Grilles

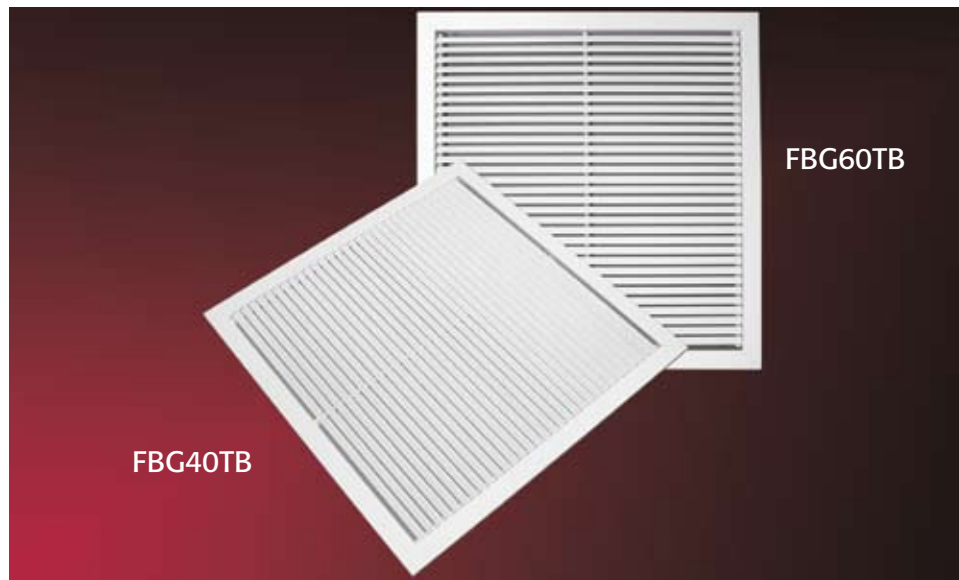

- * Available with louvers permanently fixed at a 40° or 60° angle
- * Sturdy steel construction, easy installation.

FBFG Series Fixed-Bar Filter Grilles

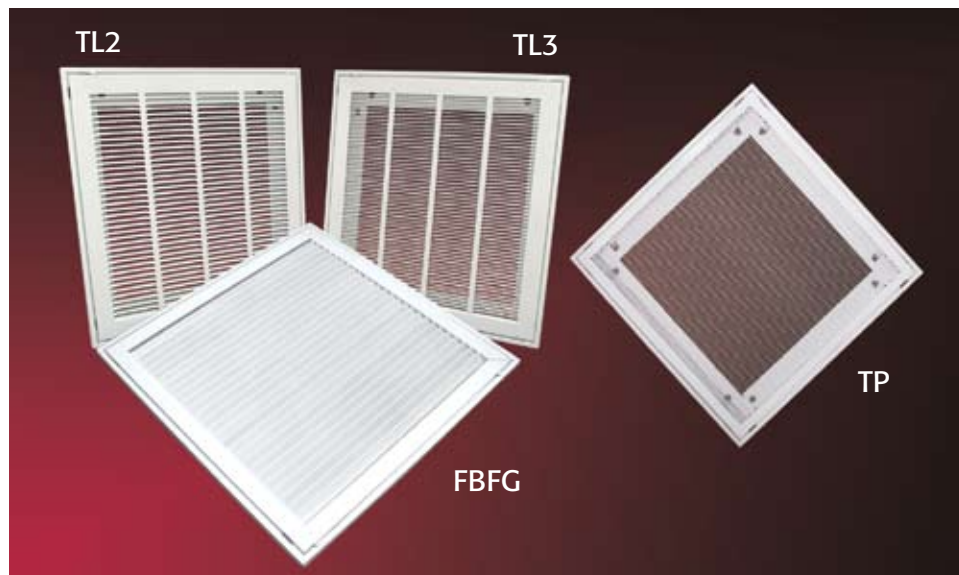

- * Fixed louvers in a 60° angles
- * Sturdy steel construction, easy installation.

FBG40 TB Series FBG60 TB Series

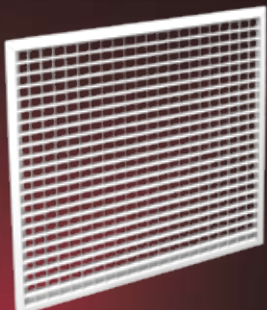

- * Durable, reinforced steel construction
- * Overall size 23 3/4" x 23 3/4" standard T-Bar Layins
- * Available with R6 formed fiberglass plenum
- * Fixed Face Bars at a 40° or 60° angle

TB Series T-Bar Filter Grilles

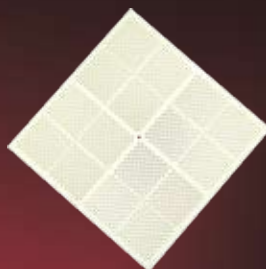

- * TL2 - 1/2" Louvered Face
- * TL3 - 1/3" Louvered Face
- * FBFG - Fixed Bar Face
- * TP - Perforated Face
- * Durable, reinforced steel construction
- * Sized for lay in ceiling
- * Accommodates standard 20" x 20" x 1" filter (Not included)
- * Removable face with concealed hinges for easy frame installation
- * Convenient access latches for changing filter

GALVANIZED

3800 Series Butterfly Damper

- * Galvanized Steel Construction
- * Removable T-Bar Handle Included
- * Snaps into 5400 Series Collar which can be installed in any "A" Series TB

3900 Series Radial Damper Series

- * Alternative to standard butterfly dampers.
- * Operator adjuster is beveled to guide flat blade screwdriver in place.
- * Snaps into 5400 Series Collar which can be installed in any "A" Series TB

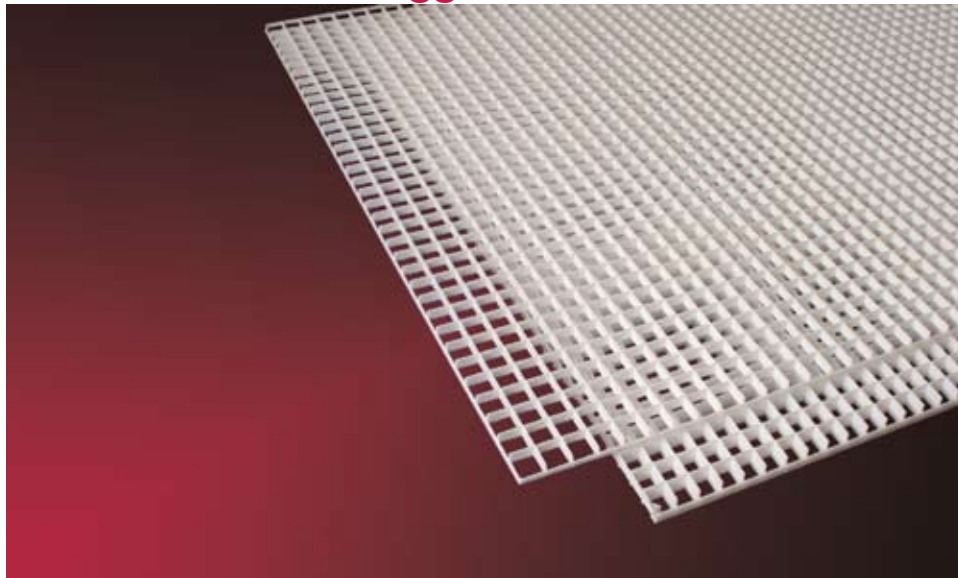

COMPOSITES

P19/P20 Series Round/Square Ceiling Diffusers

- * Boot, Damper and Diffuser all in one makes quick & easy installation.
- * Looks like aluminum
- * Snap in face covers mounting screws giving it a finished look.
- * Composite material is light weight , and does not rust.

PEC Series Plastic Egg Crate Return

- * Economical & lightweight solution for return air application.
- * 1/2" and 3/8" depth offered.
- * Available in 1' x 1', 2' x 2' and 2' x 4'.
