

Product Description

Sometimes, you just need access. And sometimes it needs to have a finished look.

We designed the AD Series for convenient and attractive access to various components of your mechanical system, especially portions that might typically be behind a finished wall or above the ceiling.

These access doors are easy to install and come in a variety of stock sizes. Custom sizing is also available. With a hinged, detachable face and thumb lever opening, operation couldn't be simpler.

Product Features & Benefits

- ☐ Suitable for residential and light commercial use
- ☐ All steel construction
- ☐ Durable, bright white electrocoat finish
- ☐ Two thumb latches secure it closed and permit easy opening.
- ☐ Hinges allow for full opening while holding door in place. If needed, the door can be removed from the frame with a slight lift.
- ☐ Slots in frame for the hinges and thumb latches are identical on each side. Therefore, the frame can be positioned in any orientation as can the door.
- ☐ This product series is economically priced and packed individually per carton.
- ☐ We manufacture the AD Series in the U.S.A. with the quality you'd expect from Continental.

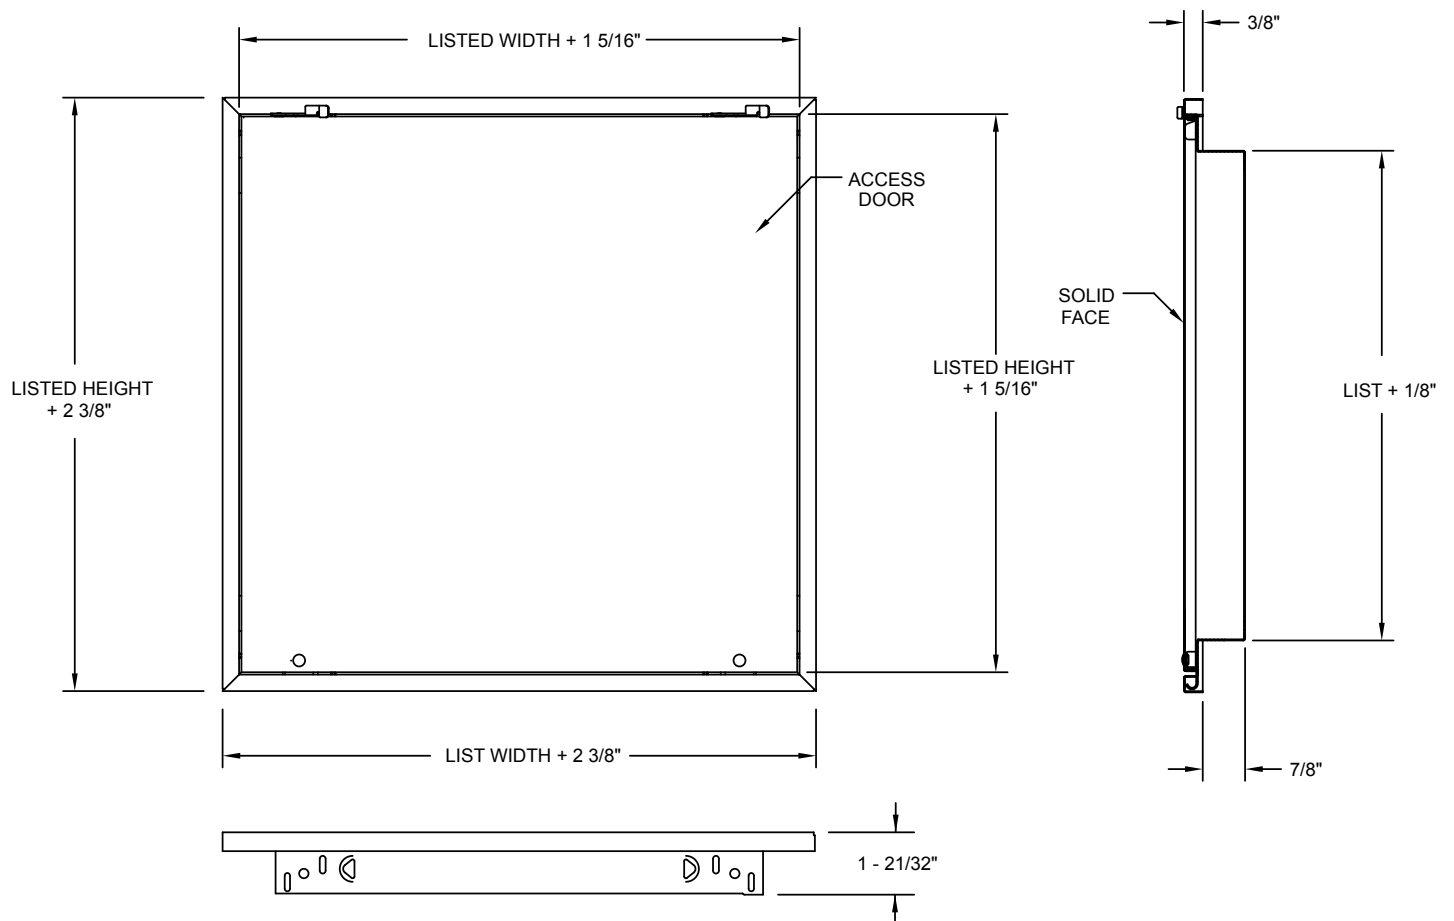

Stock Sizes

Size refers to the rough opening dimensions for the frame. See further dimensional data on the next page.

Model #	Size	Carton Qty
ADW0606	6" x 6"	1
ADW0808	8" x 8"	1
